

WLEB STRAND Application 2019

This funding opportunity is designated for the implementation of priority nutrient management practices in the Western Lake Erie Basin (WLEB) to achieve nutrient reduction goals outlined in the Michigan Domestic Action Plan. To qualify, acreage must be located within Michigan’s area of the WLEB. Participants with 50% or more farmed acres in the MI WLEB are eligible to apply for equipment (level 4). The applied conservation practices must be new or enhanced from the current practices on the proposed acres. Prior to payment, the applicant must have an approved nutrient management plan for the proposed acres and a MAEAP Cropping Assessment completed within the last 3 years. Funds will be dispersed on a first come first serve basis. The applicant may apply for multiple BMP levels.

Name: _____ Phone Number: _____

Email address: _____

Street Address: _____

City: _____ State: _____ Zip code: _____

Best Management Practices (BMP)

Check Practice(s) of Interest	BMP Level	Practice	Acres	Grant Funds
	1	Grid/zone soil sampling with nutrient management plan		\$7/acre
	2	Variable rate application or subsurface nutrient placement		\$10/acre
	3	Yield monitor calibration and evaluation of nutrient management with MSU extension (If equipment is already owned, yield monitor model: _____)		\$5/acre
	4	New or used equipment and upgrades that will assist with nutrient placement (Nitrogen and/or Phosphorus), subsurface placement, or yield monitoring. Approved equipment includes: <ul style="list-style-type: none"> - Strip tiller - Variable rate spreader carts - In-season nitrogen application (e.g. side dress bar, Y drops, etc.) - Flow meters for manure - OptRx – N crop sensor (or comparable brand) - Optix – soil pH (or comparable brand) - Yield monitors/displays 		50%, up to \$15,000

Please provide copies of your FSA field maps indicating BMP’s to be implemented for all applicable acreage

Provide equipment cost and details on next page.

If applying for level 4, please include estimated total cost of equipment and describe the equipment you intend to purchase including manufacturer, model number, etc.

Where will these practice(s) be implemented?

County: _____

Township(s): _____

Total Number of Acres: _____

Is your farm MAEAP Verified? Yes No

Signature of Applicant: _____ Date: _____

Signature of Landowner (if renting)**: _____ Date: _____

*** Signature of landowner or proof of land control (e.g. copy of rental agreement) is required if implementing proposed practices on rented land.*

WLEB STRAND Contract 2019

The Monroe Conservation District (MCD) administers the disbursement of funds for this grant. Participants enter into this contract with the MCD to implement specific conservation practices as set forth in the STRAND application. Participant(s) agree: A.) to implement and maintain conservation practices for the life of this agreement (1 year for BMP levels 1, 2, & 3; 3 years for BMP level 4) on the established acreage in compliance with NRCS specifications for the BMP and other special program criteria obtained from the MCD. B.) To forfeit further payments under this agreement and refund the MCD, in amounts determined by the MCD, if there has been violation of the material terms of this agreement. Payment adjustments could be considered as the MCD may deem appropriate.

PROVISIONS FOR RELEASE OF PAYMENTS

- The total amount of funds released will be based on the performance of implementation of proposed best management practice(s).
- No funds will be released until participant provides written proof of practice implementation and inspection by local Conservation District staff.
- Funds are dispersed on a quarterly basis after practice inspection, review of bills and receipts and approval by the Monroe Conservation District. Quarterly dates are October, January, April, July.
- It is important that inspections and review of bills and receipts be completed a minimum of two weeks prior to end of quarters.
- Before release of payment, participant must have an approved nutrient management plan for the proposed acres. Additionally, the participant must have completed a MAEAP Cropping Assessment within 3 years of payment date. For Level 3 payment release, participant must provide as applied nutrient application records and yield data for acreage in program.
- The participant should not proceed with BMP implementation until receiving official contract approval from the Monroe Conservation District. The participant can expect to receive a copy of the signed contract and approval letter within 10 business days of MCD’s receipt of the STRAND application.
